A CARE PACKAGE INITIATIVE BY MTS SICKLE CELL FOUNDATION

Program Description

The objective of our Warrior Strong Care Package Initiative is to support Sickle Cell Disease patients in the United States. Oftentimes, if a Sickle Cell patient receives a care package, it is because he or she is a child and is hospitalized. We believe that SCD patients should not have to be in a state of crisis to be supported.

We further believe that it is important that patients and families know that they are not alone and that there are organizations like MTS Sickle Cell Foundation and our community and business partners who really do care about the socio-economic struggles that goes hand in hand with a Sickle Cell Disease diagnosis.

Our care packages will include items that any warrior, young or old, can benefit from, like a comfortable sherpa blanket, medicine organizer, a medical diary to keep track of important information, an electronic device easel, and a hot/cold pack.

About **MTS SICKLE CELL FOUNDATION, INC.**

Inspired by her three daughters who battle sickle cell disease, Mapillar Dahn founded MTS Sickle Cell Foundation, Inc., a non-profit organization, to bring awareness to sickle cell disease and provide support to families affected by SCD.
