

MTS SICKLE CELL FOUNDATION, INC. TO HOST ITS 3RD ANNUAL HOLIDAY BRUNCH FOR SICKLE CELL FAMILIES IN LIBERIA

Monrovia, Liberia – MTS Sickle Cell Foundation, Inc., a nonprofit organization founded in 2015, will host its 3rd Annual Holiday Brunch as part of its ongoing efforts to raise awareness, support, and sensitivity surrounding Sickle Cell Disease in Liberia, West Africa.

The event will be held on **Friday, December 29, 2023 from noon to 2 p.m. in the Lobby of the Memorial Building at the John F. Kennedy Medical Center** located at **22nd St. & Tubman Blvd. Sinkor, Monrovia.**

MTS Sickle Cell Foundation has been advocating for people living with SCD for over eight years and has held its annual holiday breakfast in the United States for families living in the USA. The organization is proud to partner with the Consortium on Newborn Screening in Africa – Liberia to host this free event for families who are impacted by SCD in Liberia.

“Being able to help the Liberian Sickle Cell community, as someone who was born and raised there, is truly a personal milestone for me. We are hopeful that this event will become an important annual event to bring much needed support to the sickle cell community in Liberia and I am very grateful for the generosity of our sponsors, volunteers, family and friends. Sickle Cell Disease affects many Liberians, however Liberia is not apart of the global sickle cell conversation. We need all hands on deck to not only raise awareness in Liberia, but to do what we can to support families who are impacted by this life-threatening genetic disease,” says **Mapillar Dahn, Founder of MTS Sickle Cell Foundation.**

This is a FREE event for all families affected by Sickle Cell Disease in Liberia. For more information, please contact Dr. Franklin at 0886545073 or Dr. Cole at 0886493088.
